## S O L U T I O N S

## How to turn your Interactive Flat Panel Display on/off

1. Press the red Power button on top left hand side of your remote, to switch on your IFPD.
2. Press the same Power button again to switch it off.

## How to select/change between sources on your IFPD.

1. To select a source, first press the top right Source button(2) on your remote. This will bring up the Input Menu (picture right).
2. To enter the android mode, press the (2) button. Android is default.
3. Use the ◀ ▶ and ▲ ▼ arrows in the center of the remote to move up and down to highlight your source. Press the middle OK button to select your chosen source.

## How to connect your IFPD

1. Connect your laptop or PC to an HDMI port as appropriate.  For VGA, you need to connect a PC audio.
2. Connect USB cable to the computer (PC : Default) you will be using with the touch system.
3. A DVD or VCR player may be connected using the YPBPR or AV in.
4. A Control unit can be connected using the RS-232 port.
