TETRIX® PRIME Codee Bot

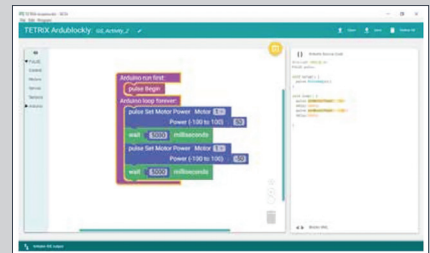

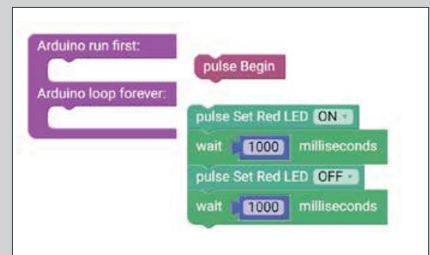

TETRIX® Ardublockly uses visual programming, also known as graphic programming.

TETRIX® PRIME delivers a comprehensive, educational robotics solution that combines an age-appropriate metal building system, a programmable PULSE® Robotics Controller, and free TETRIX® Ardublockly software.

With PRIME, students of all ability levels can experience instant success and can be up and running in less than 45 minutes by using one of the 15 step-by-step tutorials that walk through building the robots, using the software, and coding motors and sensors.

This educator-approved solution makes coding fun and relevant for middle school students and delivers everything you need to help every student succeed at STEM through robotics.

All prices exclude GST.

Terms and Conditions: This TETRIX® PRIME Adoption Offer is a limited offer exclusively available from Kookaburra Educational Resources. This offer is non-transferrable. It is available until 20th December 2019 or for the first 100 customer adoptions, whichever is reached first. To qualify for the Adoption Offer Price, this must be the first purchase of a TETRIX® PRIME Programmable Kit for the customer. *Special Adoption Offer Price and saving of \$150 ex GST is only available on the first TETRIX® PRIME Programmable Kit purchased by the customer, all further TETRIX® PRIME Programmable Kits purchased by that customer will be invoiced at the Standard Kit Price advertised.
