

Helping eLearning specialists engage students and simplify teaching

What is ReadCloud?

ReadCloud enables educators and students to access all their classroom resources in one place. Digital and remote learning is simplified and accessing content is easier than ever.

Helping you to efficiently deliver curriculum content and increase device usage with technology that just works.

“*ReadCloud is entirely customised. And because of the fantastic time table facilities, when they open it, at the very top is going to be the class that they've got.*

Head of Digital Integration

Intuitive

The entire repertoire of curriculum content at the fingertips of educators and students in a simple and intuitive platform that is easy to use.

Collaboration

Virtual class clouds promote social and collaborative learning, turning content into a place of discussion and active engagement.

Interoperable

Access ReadCloud securely through your LMS and other digital tools with LTI integrations for secure and easy access.

Training

Your staff are supported with PD and training to use ReadCloud, along with a library of guides and tutorials.
