

CommBox Neo

The simple, secure interactive display.
OS-free. Simple to use. Easy to deploy.

Plug in your laptop and get to work. CommBox Neo delivers essential interactivity without complexity – designed for real classrooms and meeting rooms.

Why Teams Choose Neo

Walk-Up Simplicity

Turn it on, select an input and start. Anyone can use Neo in seconds – no training required.

Maximum Simplicity = Maximum Security

OS-free architecture with fewer background processes and minimal configuration. Fewer background processes, fewer updates, fewer things to manage.

Works With the Tech You Already Trust

Use your existing laptop, PC or OPS. Your software, your platforms — now touch-enabled.

Built-In Tools That Work

Whiteboard, annotate over connected content and save notes to USB or connected device. No accounts. No subscriptions. No learning curve.
