

DESERT ANIMAL SNAP

1. Divide students into groups of 4 to 6.
 2. Reproduce this page back-to-back with BLM 6, until you have at least 15 Name Cards and 15 Fact Cards per group.
 3. Cut out the cards and divide between group members ensuring each student has the same number of Name and Fact Cards.
 4. Let students select desert creatures and write their names on the Name Cards and a fact about each creature on the Fact Cards.
 5. Laminate the cards and cut out again, leaving a small margin of laminate around each.
 6. Let each group play Snap following normal rules. To snap, the player must correctly match a name and fact pair.
- Can students think of other games they can play using the cards?
