WHAT YOU WILL NEED

Balloon x 1

Newspapers

Scissors

Yellow Crepe
Paper

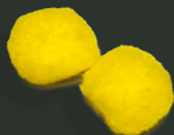

Bostik Clag
Paste

Bostik Craft
PVA Glue

Googly Eyes x 6

Pom Poms
(Yellow) x 3

Pipe Cleaners (Black
x 3, White x 3)

1 Pin

Bostik Bee Hive

STEP 1

Blow up the balloon and tie the end.

STEP 2

Shred the newspapers into long strips. Empty Bostik Clag into a bowl. This will make the glue easier to apply.

STEP 3

Apply Clag to the surface of the balloon and stick down the newspaper strips – make sure they are smooth! Continue this process until the entire balloon is covered! Repeat step 3 twice – you'll need at least three layers of paper! Leave the bee hive to dry for 48 hours.

STEP 4

Check the bee hive is dry and pop the balloon with the pin! Decorate the bee hive with overlapping strips of crepe paper and Bostik Clag.

Bostik Bee Hive

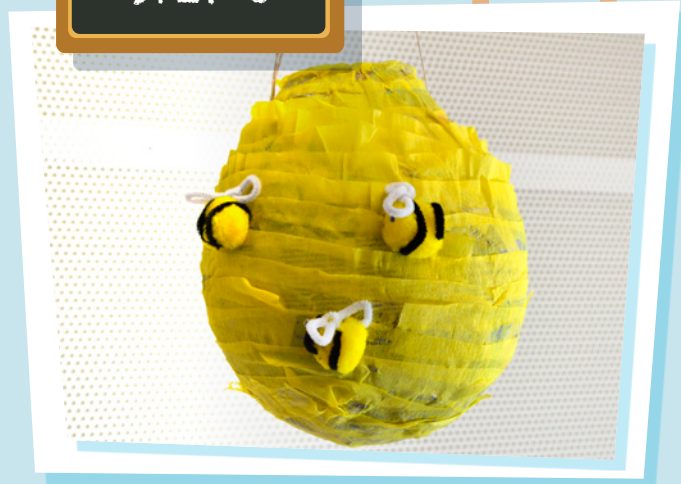

STEP 5

To Create The Bees

Twist a black pipe cleaner around a yellow pom pom to create the bee's stripes. Twist a white pipe cleaner through the bee's stripes - this will form the wings. Use Bostik Craft PVA Glue to stick the eyes to the bee's face

STEP 6

Use Bostik Craft PVA Glue to stick the bees to the hive! Buzz, buzz!
