HOW TO MAKE A

Bostik Crab

YOU'LL NEED:

- Printed Template
- Paper Cup
- A4 Coloured Card x 1 sheet
- Matching coloured crepe paper (2 shades of the same colour)

HINT: Choose any colour paper/crepe paper you like.

- Scissors
- Red Markers
- Joggle Eyes (around 18mm)
- Clag Paste
- Bostik Blu-Tack
- Bostik Fine and Wide Glue
- Bostik Glitter Glue

STEP 1

Print the template and find a clean surface to work on. Make sure you have everything you need.

STEP 2

Tear the crepe paper into small pieces and use the Clag to glue it randomly all around the outside of the cup.

Leave to dry.

STEP 3

Blu-Tack the template to the card and cut out the legs, claws and mouth.

Decorate the legs and claws with Glitter Glue and colour in the tongue with the red marker.

HINT: If your card is not too thick, you could also Blu-Tack the template to a window and trace the legs and claws onto the card.

STEP 4

Use the Fine and wide glue to stick the Crab together.

Stick the claws and legs onto the back on the cup and the eyes and mouth onto the front.

Leave to dry.

All done – great work!
