

HOW TO MAKE A

# Bostik Hot Air Balloon

## YOU'LL NEED:

- Printed Template
- Colourful A4 card x4 different colours
- Backing card
- Hole punch
- String
- Scissors
- Cupcake liner
- Greylead Pencil
- Bostik Glu Stik
- Bostik Blu-Tack

## STEP 1

Print the template and find a clean surface to work on. Make sure you have everything you need.

## STEP 2

Use the Glu Stik to glue the template to the backing card. Cut it out.

Fold the coloured paper in half length ways. Keeping the paper folded, line up the straight edge of the balloon template with the crease.

Trace the template onto all the pieces of coloured paper.

Keeping the colour paper folded, cut out the balloon from the coloured paper.

## STEP 3

Keeping the four cut out balloons folded apply the Glu Stik to one side of the first balloon.

Line up with the second balloon and stick down. Repeat, gluing the second to the third, then third to the fourth balloon.

The fourth balloon then sticks together with the first balloon.

## STEP 4

Using the hole punch make two holes at the top (on opposite sides) of the balloon.

Make a hole near the outer bottom edge of each side of the balloon.

## STEP 5

Using the hole punch make four holes even spaced around the top edge of the cupcake liner.

Then use the hole punch to make confetti out of the four coloured cards.

Cover the outside of the cupcake liner with glue and roll it in the confetti to cover.

## STEP 6

Cut four even lengths of string.

Feed one end through a hole at the bottom of the balloon and one end through a hole on cupcake line. Tie the ends together.

Repeat for the other 3 holes making sure the cupcake liner is level.

## STEP 7

Cut one long length of string.

Feed one end through the hole at the top of the balloon, and one end through the other.

Then feed both ends through the loop in the string to lock into place.

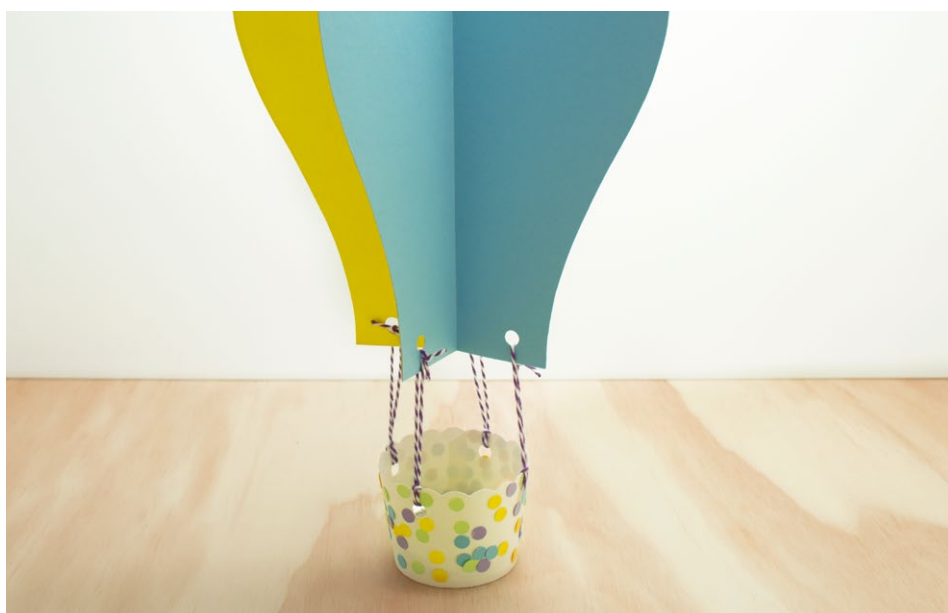

## STEP 8

Blu-Tack the string to the ceiling or wall shelf.

**TIP:** Hanging from ceiling – double the distance you want to get the string length you'll need.

All done. Fantastic work!
