HOW TO MAKE A

Bostik Icy Pole

YOU'LL NEED:

- Various Coloured A4 paper for decoration
- Various Coloured Card for main icy pole.
- Icy Pole sticks (craft stick)
- Scissors
- Greylead pencil
- Bostik Glu Stik
- Clag Kids PVA
- Bostik Glitter Glue

STEP 1

Find a clean surface to work on and make sure you have everything you need.

STEP 2

Use the greylead pencil to draw your icy pole on the coloured card. Make it any shape you like and then cut it out.

Draw then cut out various shapes from the coloured paper to decorate your icy pole.

TIP: If you don't want a normal icy pole shape, you could trace a glass to create a circular shape. Or for something different, why not make it the shape of your favourite fruit!

STEP 3

Use the Glu Stik to stick these onto the main icy pole. The clean side (no pencil marks) of your main icy pole should be facing up.

Apply some Clag Kids PVA to half of the icy pole stick and glue the your icy pole design on top.
