WOOD STAIN

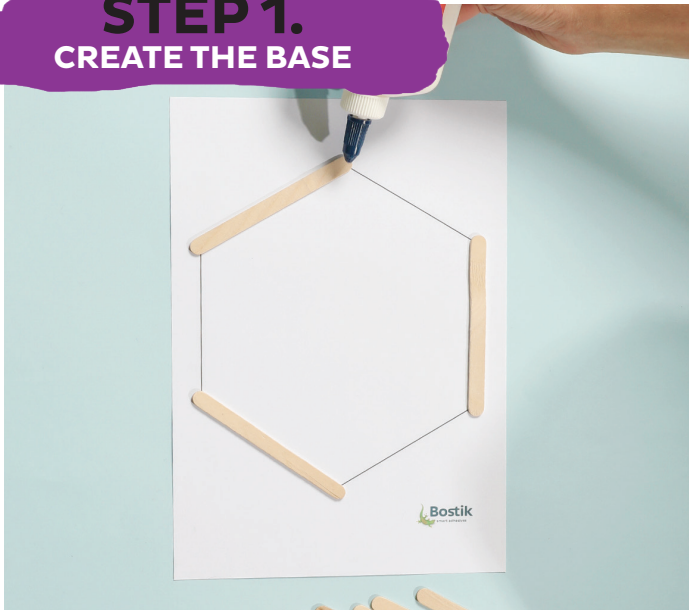

PAINT BRUSHES

PROJECT SHEET

SAVE POPSICLE STICKS OVER SUMMER AND RECYCLE THEM HERE!

STEP 1. CREATE THE BASE

Add a drop of glue to both ends of three popsicle sticks and lay them as shown.

STEP 2. LAYER IT

Layer three more sticks to complete the hexagon.

STEP 3. RINSE AND REPEAT

Continue glueing and layering like this until your hexagon shelf is as deep as you'd like it to be. Allow the glue to dry.

STEP 4. PAINT IT

Cover the shelf in wood stain, ensuring you get the colour in between all of the popsicle sticks.
