HERE'S WHAT YOU NEED TO GET STARTED...

BOSTIK
GLU STIK

SCISSORS

SHOEBOX

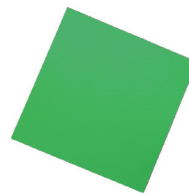

A4 OR LETTER SIZE
CARDSTOCK

BROWN
CONSTRUCTION PAPER

GREEN CREPE PAPER

GREEN PAPER

CRAYONS OR
COLOURING PENCILS

PROJECT SHEET

POSITION YOUR SHOEBOX UPRIGHT FOR TALL TREES!

STEP 1. CREATE YOUR BASE

Cover the inside of the shoebox and shoebox lid with green paper.

STEP 2. DRAW TREES

Draw half of a tree trunk, aligning with the long edge of the paper and branching out. Leave a 2cm space along the edges to create tabs. Cut out the tree.

STEP 3. GLUE TO BOX

Fold the tabs and glue them to the edges of the box.

STEP 4. ADD LEAVES

Cut foliage out of green paper and glue to the branches and to the edges of the box. For a 3D look, use crumpled green crepe paper.

PROJECT SHEET

ADD CARDBOARD
TABS TO THE
ANIMALS TO HELP
THEM STAND

STEP 5. ADD FERNS

Create some ferns and other rainforest plants using plain paper or crepe paper. Glue the plants to the box using a Glu Stik.

STEP 6. ADD WILDLIFE

Draw rainforest animals or cut them out from old magazines.

STEP 7. MOVE THEM IN

Position the animals inside the diorama. You can glue them onto tree branches, behind the trees, or even on top of the canopy.
