

Make your own Jellyfish Mobile

AIM:

To create awareness amongst children about safety at the beach.

MATERIALS NEEDED:

- 2 medium styrofoam balls cut in half (105435)
- Various coloured pipecleaners (104704, 102205, 106388, 106364)
- Paint & paintbrushes
- Wool or string
- Wooden skewer
- Darning needle
- Moving eyes (103790)
- Pencil
- Glue
- Scissors

INSTRUCTIONS:

1. Cut styrofoam balls in half (get an adult to help you do this).
2. Paint styrofoam balls.
3. Use skewer to poke hole through middle of ball (get an adult to help you do this).
4. Tie a knot in one end of wool and put through the hole from bottom to top. Tie the top end of wool to the coathanger.
5. Wrap pipecleaners around pencil to form spiral and push into bottom of styrofoam balls.
6. Glue moving eyes to front of each ball.

DISCUSSION:

1. When or where have you ever seen a jellyfish?
2. Some jellyfish can sting you, what other creatures might hurt you at the beach?
3. What can you do to make sure you don't get hurt?
