

HOW TO MAKE UHU SLIME

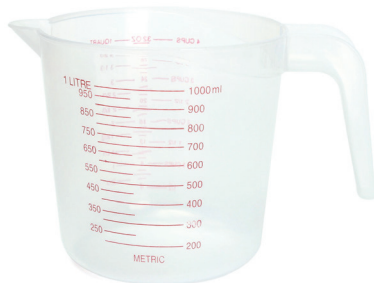

1. Empty the contents of UHU 250ml Craft Glue into a large bowl (A). (Keep the bottle)
2. Now Fill the empty UHU Craft Glue Bottle 250ml with water and pour this into the separate jug. (B)
3. Stir One Tablespoon of Borax into the 250ml jug of water (B) and stir until completely dissolved. (Let stand)
4. Add 125ml of water (Use Half the empty glue bottle) into the bowl of glue (A) and stir. Using your fingers mix the water and the Glue together in the bowl.
5. Add food colouring into the Glue and Water bowl and mix in with your fingers
6. Mix in the Borax/water mix into the bowl a little at a time and keep mixing with your fingers
7. All Done! You have made coloured slime!!
