

Watercolour effects with Mega Markers

IDEA!

Create beautiful watercolour effects using Micador Mega Markers and water on Roymac Rains Watercolour Paper. Then outline with Micador Stay Anywhere™ Permanent Pen to create a striking image.

You'll need...

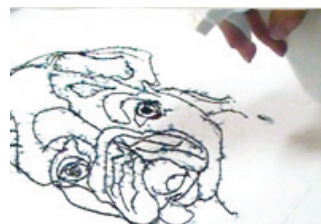

- Roymac Rains Paper
- Black Micador Mega Markers
- Micador Stay Anywhere™ Permanent Pen
- Micador Essential Graphite Pencil

Let's start...

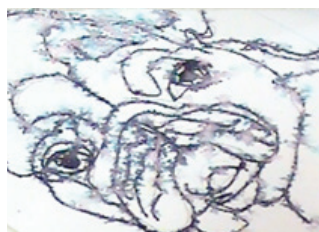

1.

Draw your image on Roymac Rains Watercolour Paper using a Black Micador Mega Marker.

2.

Lightly spray with water using a spray bottle with a fine mist. You will see the black marker bleed to reveal beautiful pink and blue hues.

3.

Set your picture aside until it is completely dry. You can also use a hairdryer to speed up this process!

4.

Using a Micador Stay Anywhere Permanent Pen, outline around where the ink has spread. Continue until you have outlined the entire image.

5.

Use a white Paint Pen or white acrylic paint to add extra detail or touch up any areas you like.

Your artwork is now complete!
