Flip over.

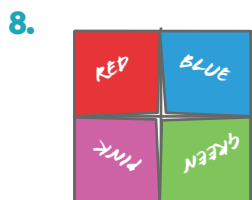

Rotate then fold all the corners to meet in the centre (same as step 3).

Flip over.

9. FINISHED

Insert your thumbs and forefingers under the squares and move the fortune teller back and forth to play.

How to tell someone's fortune

Get them to pick a colour. If it is red, spell out RED, while moving the fortune teller 3 times (number of letters in the selected colour).

Then they choose a number from the middle of the fortune teller. If it's the number 4 you then move the fortune teller 4 times.

They then choose a number from middle. This time lift up the flap for that number and tell them their fortune.
