## RØDECASTER PRO II™

The RØDECASTER Pro II is the world's most powerful all-in-one audio production solution. Loaded with cutting-edge next-gen features and supercharged by a high-performance quad-core audio engine, it delivers next-level audio for any content creation application and is ideal for four-person podcasts, advanced streaming setups and music production.

## RØDECASTER DUO

The RØDECASTER Duo delivers all the power and prowess of its bigger sibling in a more compact and portable package. With its two inputs and added headset port, it's perfect for two-person podcasts, solo streamers and gamers, and any setup where portability or a small footprint are key.
