

commBOX

The new and *improved* Interactive Classic

Empowering students, teachers and schools to achieve more with next-level innovation

Create effortless learning spaces with the latest high-performing Interactive Touchscreen from CommBox.

Lead by customer-driven innovation, CommBox is committed to delivering the best experience possible. With evolved hardware and an intuitive user interface, you can cultivate productive, effortless and collaborative classroom experiences.

CommBox is passionate about education, and our most popular education apps are available for free, and easily accessed from the new tools menu.

Other new features include:

Updated tools menu

Access the new tool menu directly from the home screen, with our in-house developed apps just two taps away. Download the apps you want directly from the CommBox store.

Built-in Miracast with touchback

The most advanced screen mirroring software, with the added benefit of touchback. Share your screen and collaborate on the CommBox. All your notes and edits will reflect in the original document.

Improved User Interface

Intuitive and effortless. Write, draw and tap with multi-touch ability up to 20 points of contact.

Front-facing speakers

Crystal-clear, powerful audio so everyone can hear, making for inclusive classrooms.

Now with USB-C

Access the new USB-C port directly on the front of your screen for even more connectivity.

CommBox Manage included

Our easy-to-use cloud platform for central monitoring and management is now included free of charge.

Sleek and stylish

Modernise your classroom with more refined edges to the bezel.

Proudly designed and developed in Australia, with Australian and New Zealand education in mind.
