THE **COMM**BOX
Video Conference Kit

Brought to you by the team that leads the way
with interactive collaboration panels....

Introducing...

commBOX
Video Conference Kit

A plug and play video conferencing solution
you can rely on...

Claim back the first two minutes of every VC meeting with a video conferencing set up that just works. Connect your team in and out of the office seamlessly, install in seconds on any device, and make every meeting productive. Experience premium wireless sound and clear video.

zoom

Microsoft Teams

and more...

GET UP AND RUNNING IN TWO STEPS:

- Plug the USB camera into your screen or laptop
- Turn on the microphone

Premium, wireless audio...

Tired of lagging speakers or fuzzy audio? The new CommBox VC kit provides clear sound in every meeting, turning any meeting room into an vc room in seconds. Stay focused and engage in the meeting because you can clearly hear your team mates, with no background noise with the CommBox wireless microphone.

Video Conference software flexibility...

Need to switch quickly between Teams and Zoom? CommBox makes it easy to run meetings on any platform with the CommBox VC Kit. No matter which collaboration platform you choose, the CommBox VC kit works effortlessly. With a modern design, compact camera and wireless microphone, the CommBox VC kit looks good in any room. Add it to your personal and huddle workspaces, plus small to medium conference rooms.

commBOX Set Ups

Achieve true harmony and collaboration by pairing the CommBox VC kit
with a CommBox Interactive Touchscreen...
