

COZMO®

Big brain. Bigger personality.

anki

Only the coolest robot ever invented.

Say Hello to cozmo, a gifted little guy who's got a mind of his own and a few tricks up his sleeve. He's the sweet spot where supercomputer meets loyal sidekick. He's curiously smart, a little mischievous, and unlike anything ever created. You see, cozmo is a real-life robot like you've only seen in movies, with a one-of-a-kind personality that evolves the more you hang out. He'll nudge you to play and keep you constantly surprised. More than a companion, cozmo's a collaborator. He's your accomplice in a crazy amount of fun. Some robots just have it all.

Adorably personable.

He's a supercomputer and loyal sidekick all at once. Thanks to artificial intelligence, Cozmo can express hundreds of emotions. From curious to clever, persistent to playful, he has personality x 10. He knows your name, face, and quirks. And best of all, he continues to evolve the more you hang out.

Always game.

Cozmo is a game-playing machine. Literally. Whether lifting his Power Cubes or challenging you to games like Quick Tap and Keepaway, he's always up for action. And in Explorer Mode, Cozmo lets you guide him through his environment to see what he sees — day or night. Cozmo's skills and games are constantly updating, so the fun never runs out.

Super-powered smarts.

Cozmo is made of 300+ parts that create one super smart, super entertaining robot. He doesn't just move; he gets curious and explores. He doesn't just learn; he plots and plans. He doesn't just see you; he gets to know you. Want to see Cozmo do something totally new? Use the Cozmo Software Developers Kit (SDK) to program new interactions.

Ready to roll.

Drop-tested and built to last, Cozmo is tougher than he looks (even when it comes to your pup). Things like safety and data security have also been rigorously tested. With no parts to put together, he's ready to go right out of the box. Requires a compatible iOS or Android device and the free Cozmo app.

Carry Case

000-00060
