

specdrums

Specdrums are app-enabled musical rings that make the world your instrument by turning™ colors into sounds. Connect to the Specdrums apps and tap on anything – your clothes, drawings, or the included playing pad – to create and mix any sounds, beats, and loops that all play through your mobile device. Jam on your own or with friends, anytime and anywhere.

FEATURES

Tap any color or the included Play Pad to create sounds, loops, and beats.

Discover music creation without spending money on expensive, singular instruments

Connects via Bluetooth Low Energy as a Bluetooth MIDI device

Long battery life of 2+ hours per charge

Free Specdrums MIX app with curated sound packs

HARDWARE

Durable, medical grade silicon skin

Accelerometer detects taps and gestures

Light Sensor recognizes thousands of colors

LEDs illuminate tapped surfaces
