Osmo
FOR SCHOOLS

Classroom Kit

Designed for educators. Inspired by students.

The Classroom Kit provides students the unique opportunity to learn with their hands — and technology. Engineered to support the needs of teachers, the Osmo Classroom Kit is ideal for independent learning, small-group instruction, and centers.

The Classroom Kit includes features designed specifically for teachers:

▸ A range of subjects, including English language arts, maths, science, and art

▸ Real-time data to drive instruction

▸ A teacher dashboard that makes it simple to differentiate instruction

▸ A downloadable Teacher's Guide and access to the Osmo Support Team

▸ Customisable content that can easily be aligned to learning standards

> " Osmo is changing the learning environment of our students. It has become a powerful tool for creation and learning in our schools. "
>
> KARIE HUTTNER — EDGERTON, WI

Meeting the demands of teachers, all day, every day.

Easy to set up • Intuitive to use • Simple to store
