

CarryOn™

Introducing the first ultra-mobile charging station. Charge, store and carry up to five iPad or tablet devices.

Efficient USB charging. With up to 2.4 amps of power at each port, you can simultaneously charge 5 devices in the same amount of time as just one.

Compatible. Universal design and functionality makes it compatible with all iPad models, as well as other USB chargeable devices.¹

Ultra-mobile. The CarryOn is designed to be the most portable charging station on the market. Its compact design coupled with built in handle makes distributing devices easier than ever before.

Wall mountable. The CarryOn includes a wall mounting kit so that you can transform any wall into a space for storing devices.

Lifetime warranty.
PC Locs products are built to last.²

It just makes life easier.

Ultra mobile. Compact. Easy.

PC Locs has always offered a unique perspective to physically managing mobile devices. The CarryOn is no different, taking portability to the next level. The CarryOn allows you to carry five devices, together with all the charging hardware and cables in one neat and compact unit. Teaching, working and learning anywhere just got a lot easier.

Durable. Sleek. Quality.

The CarryOn is more than just a pretty face. The aluminium outer shell makes it both lightweight and durable, protecting the devices inside. The transparent acrylic door allows customers to quickly check that all the devices are there, while the impact resistant PCABS alloy edging gives it a neat and classy look. It's finished off with an aluminium handle to make it comfortable and easy to carry.

Charging efficiency like no other.

At the heart of the CarryOn lies an intelligent USB charger that is both powerful and efficient. With 2.4 Amps of power at each port, it can charge five devices simultaneously and boasts Level VI Efficiency. The CarryOn plugs into mains power via the cable at the back and wraps around the cable cleat when you're carrying it around, keeping it neat and tidy.

Familiar, yet unique.

Designed to store 7" - 10" tablets and accommodates devices with a variety of cases¹. The CarryOn's acrylic door includes a keyed lock to keep devices safe, and as for storing the CarryOn itself, a wall mount kit is included in the package.

Specifications:

Dimensions (mm): 313(L) x 183(W) x 303(H)

Weight: 2.5 kg
