

New STAEDTLER Exam Pencil – Key Information

While schools were often provided with pencils in their NAPLAN Test Materials package in the earlier years of NAPLAN testing, in recent years this has changed.

From 2016, it was confirmed that pencils will no longer be supplied to schools to use when completing the NAPLAN tests. As such, schools need to have arrangements in place for students who do not provide their own resources.

Enter the STAEDTLER Exam pencil! STAEDTLER have identified the needs of students sitting their NAPLAN tests and created a custom made, exam specific pencil. The STAEDTLER Exam pencil features a German made **2B lead** for easy recognition in electronic exam marking, as well an **eraser tip** to easily correct mistakes.

The STAEDTLER brand is synonymous with quality, so you know this is a product you can count on for quality results time and again.

This year STAEDTLER have done the thinking for you so there's no need to worry, knowing that STAEDTLER have you covered for the upcoming NAPLAN tests with their new Exam pencil!
