All-in-One Voice Device Solution

All Devices in One

All Connection in One

All Control in One

Explore the All-in-one Features of UC Workstation

All Devices in One

The UC Workstation combines a full-duplex speakerphone, USB hub, a wireless charging stand, and a control pad for call control and device connections. It helps consolidate the things you need for your daily routines, and cut down the complicated cabling at your desk, providing more possibilities and convenience for collaboration.

All Connection in One

Built-in Bluetooth and USB connections allow the UC Workstation to connect 3 devices simultaneously, from PCs to mobile phones and desk phones. You can easily manage calls and meetings on the UC Workstation.

All Control in One

Manage devices connections, control calls, or change your preference settings all on the 4-inches touch console with the intuitive user experience. Users can easily answer, hold, or mute calls, or switch calls between multiple devices, or continue a conversation on the speakerphone with one touch.
