

# WITHOUT WORDS

Although we usually communicate through spoken language there are other methods we can use, for example, facial expressions and hand movements.

1. Study the following hand actions, then match the appropriate letter to a meaning listed below.

There were two ...      Let's pray .....      That one there .....      Victory .....      Let's hope so .....

The letter Q .....      Well done! .....      Do it my way! .....      Ok ....      Come here .....

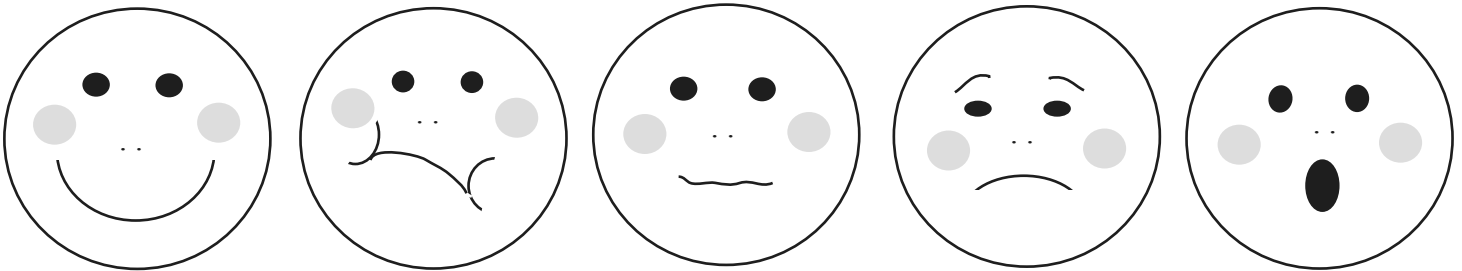

It was this big .....      A gun .....      Let's shake on it! .....      We're right to go .....

I've got nothing to hide .....

2. Draw a picture of a hand/hands to show the following:

- i. Ring me.
- ii. The letter T
- iii. There were three

3. Study the faces below. What emotion do you think each shows? Write it underneath, along with three things that make you feel that way.
