

POP 'N' HOP

For 2 to 4 players
Ages 5 and up

INSTRUCTIONS

Object of the Game

To be the first player to get all four of his playing pieces "HOME".

Contents

Plastic game board with game die popper, 16 movers, instructions.

Set-up

Give each player four playing pieces of the same color as his/her corner of the board. These are then placed in the four corner spaces. Each player in turn pops the die. The player popping the highest number will begin the game with all the other players following in a clockwise pattern.

Playing

Before a player can move a playing piece out of his corner, he must first pop a "6". He then moves a playing piece onto his "arrow" space, immediately takes another pop and may move this or any of his other playing pieces already in play, the number of spaces popped. All moves must be clockwise around the board. Throughout the game a pop of "6" may be used either to move a new playing piece onto the "arrow" or to move a playing piece already in play. A pop of "6" always entitles a player to another pop.

If a playing piece ends by landing on a space already occupied by an opponent's playing piece, then the opponent must return his playing piece to one of his corner spaces. This playing piece can only then be brought back into play with a pop of "6". A playing piece cannot end its move on a space already occupied by a playing piece of its own color. Another pop of the die must be used, even if this is to the player's disadvantage.

When a playing piece has made one full rotation around the board it enters its own colored "Home". The opponents' playing pieces are not permitted on this path. An exact pop is required when moving into "HOME".

Winning the Game

The first player to get all his playing pieces "HOME" is the winner.
