

Re-Pairing Cino F780BT scanner to the Smart Cradle

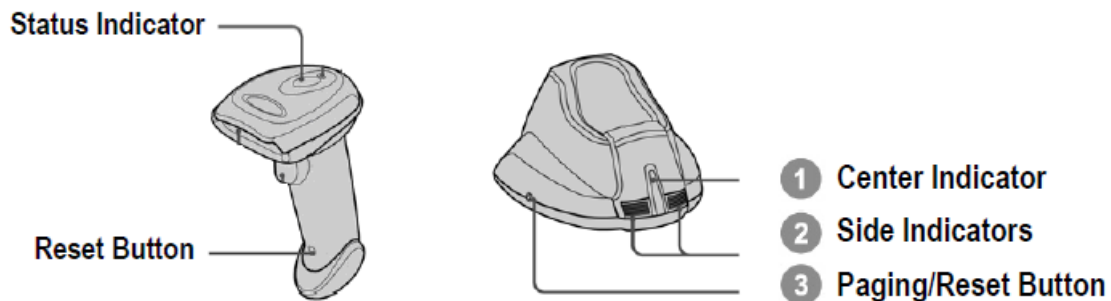

To pair the BT scanner and the Smart Cradle, both of them should be set to “Uninstall” state.

To set the BT scanner to “uninstall” state, please scan the barcode below.

Failing this, please take a paper clip and press the Scanner Reset Button. This will return the scanner to the “uninstall” state.

To set the Smart Cradle to “Uninstall” state, please press and hold the reset button (See “3” on the diagram below) for over 3 seconds until the LED indicator begins to display alternate red and green blinks.

To pair, scan the barcode below and then place the BT scanner on the Smart Cradle.

What does the LED indicator mean?

Cino BT scanner:

1 blue blink per 2.5 sec: Radio connected
Alternate red and green blinks: “Uninstall” state

Smart Cradle:

Center – steady blue; side – steady green: Radio connected
Centre – off; side –steady red: Radio disconnected
Alternate red and green blinks: “Uninstall” state
