Step 1: Scribble Your Ribbon

Using your black marker draw out a long, swirly continuous scribble. Ensure that your line loops and curls over itself numerous times.

Step 2: Colour Your Ribbon

Colour in each compartment using your oil pastels. Try and ensure that no two neighbouring compartments are shaded with the same colour for best results.

Step 3: Turn Your Pastel Into Paints!

Dip a cotton bud in the oil, wipe off the excess on a tissue, and then rub it over each compartment. Watch as the oil colours magically turn into bright and vibrant paint!
