Welcome to Sound Waves Spelling

About Sound Waves Spelling

Sound Waves Spelling is a whole-school program developed by Australian teachers for use in Australian classrooms.

Informed by research on the best practices for teaching spelling, the program incorporates four key areas of teaching:

phonemic awareness	morphology
synthetic phonics	etymology

With the teaching resources available at *Sound Waves Spelling Online*, teachers can deliver systematic, explicit and engaging lessons to support students to develop a deep understanding of how words work.

The activities in this book align with, and consolidate, the knowledge and skills taught in these lessons.

Unit Structure

Student Books 1–6 of Sound Waves Spelling contain 36 units of work in each year. Each unit is designed to take one week to complete.

Unit 1 Getting Started

This introductory unit establishes the basic concepts that students need to begin working with the program.

Units 2–36 Sound Units

The activities in the Sound Units are based around the 43 phonemes of Australian English and the graphemes that can be used to represent them in writing. In these units students:

- learn to spell words containing the focus phoneme (Focus Words)
- practise and apply spelling and vocabulary concepts (Focus Concepts).

Sound Boxes

In Sound Waves Spelling each phoneme is represented by a Sound Box. Each Sound Box contains a Sound Icon and the most common grapheme/s used to represent that phoneme.

When you see a Sound Box, say the phoneme it represents, not the name of the Sound Icon or the letter name. For example, say the phoneme /f/, not *fish* or the letter name **f**.

phoneme

the smallest unit of sound in a word, for example, the word *chat* has three phonemes: /ch/, /a/ and /t/

grapheme

a letter or letter combination used to represent a phoneme in writing, for example, the graphemes **ch** or **tch** can be used to represent the phoneme /ch/, as in *chat* or *catch*

phonemic awareness

the ability to work with phonemes, for example, segmenting a word into phonemes or blending phonemes to form a word

synthetic phonics

an approach to phonics instruction that involves *explicitly* and *systematically* teaching the relationship between phonemes and graphemes

morphology

knowledge of the meaningful parts of words: prefixes, suffixes, and Greek and Latin roots

etymology

understanding of word origins and history

Sound Box

Sound Icon graphemes

/f/ as in *fish*

How to Use This Book

The activities in this book consolidate the explicit teaching of phonemes, graphemes and Focus Concepts. Each set of activities should only be completed after the associated lesson has been taught using the teaching resources at *Sound Waves Spelling Online*.

Sound Box
represents the focus phoneme

Focus Words
contain the focus phoneme and link to Focus Concepts

Focus Word activities
involve identifying the focus phoneme in words, segmenting words into phonemes, and reading and spelling words

Focus Concept activities
involve working with spelling and vocabulary concepts

★ A star in the banner indicates there is one or more hints for the Focus Concept. The Helpful Hints are located on page 80.
