WIRELESS ME™ TX

TRANSMITTER FOR THE WIRELESS ME

The Wireless ME TX is an ultra-compact wireless transmitter that makes recording professional audio for your videos effortless – perfect for expanding a RØDE Series IV wireless system. It features both a 3.5mm TRS input for connecting external microphones like lavaliers or VideoMics, along with a built in omnidirectional mic, and thanks to the intelligent GainAssist technology, you can simply clip it onto your subject to be recording crystal-clear wireless audio in seconds.

Note: This product requires a RØDE Series IV RX (receiver) to operate, such as the Wireless ME RX, Wireless GO II RX, RØDECaster Pro II, RØDECaster Duo or Streamer X.

- Simple-to-use wireless transmitter for the RØDE Series IV wireless system

- Series IV 2.4 GHz digital transmission for crystal-clear recording with over 100m range

- Intelligent GainAssist technology automatically adjusts volume levels on-the-fly

- High-quality, built-in omnidirectional microphone

- 3.5mm TRS input for connecting external lavalier microphones or VideoMics

- In-built rechargeable lithium-ion battery – up to 7 hours battery life

- Requires a RØDE Series IV receiver to operate (including Wireless ME RX, Wireless GO II RX, RØDECaster Pro II, RØDECaster Duo or Streamer X)
